

Eaton's Bussmann series 10 x 85 mm fuse holder is suitable for use with 10 x 85 mm and 14 x 85 mm cylindrical gPV fuse links. The unique design offers high degree of safety. There is no possibility of any accidental contact with live parts during replacement of the fuse links. When the fuse carrier is in the extracted position the carrier covers the live parts hence protecting against any accidental contact.

Part Number	Description
CHPV15L85	1 Pole Carrier

Rating & Voltage: 32A 1500VDC

Terminals: 4 to 10 mm² flexible, directly clamped or with wire -end ferrules (Note: either may not be possible with maximum cross section).

Terminal Screws: M5 Phil slot head, zinc plated

Suit Fuse: PVxxA10F85L (10.3 x 85mm)

Pack Size: 1, 10

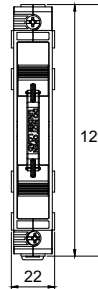

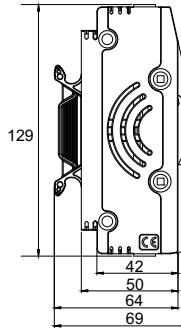

Body: Flammability UL 94

Approvals (Carrier): IEC60269-1, UL4248-1, UL4248-19
