

A quick, easy and reliable method of attaching additional electrical cables to a battery terminal or to ground. They can be stacked to provide multiple taps at one location. The special shape of the BAT-TAP allows for optional attachment directly to battery side terminals.

Battery Application: Once mounted on the battery terminal, the tap provides three 6.35mm (1/4") quick connect terminals that can be used to power accessory products.

Grounding Application: Once mounted onto the frame, the tap provides three 6.35mm (1/4") quick connect terminals that can be used to ground accessory products.

Part Number	Description
BAT-TAP	Designed for screw-type battery terminals
BAT-TAP-POST	Designed for post-clamp type battery terminals

Terminals: 3 x 6.35mm (1/4" QC)

Important Note: Always install an inline fuse holder to protect the accessory.

Holders: Inline Minifuse, Inline Autofuse

Pack Size: 1, 10, 100

Spare Pack (SP):
contains 1 circuit tap.

Example when using
multiple Bat-Tap's
